- Reflective material products can be customised to suit almost any application. Talk to one of our sales representatives today to discuss our large range of custom coloured reflective cone collars.

CONE BAR

- This retractable bar fits directly over traffic cones of all sizes to provide an easy and economical barrier system. It is made from tough plastic and can be extended or retracted to cover a range from 1240mm - 2100mm.

LED CONE SLEEVES

- Exclusive to HI-VIS Signs & Safety, these LED cone sleeves fit over standard size traffic cones and include flashing LEDs gel set into class 1 reflective material and an independent on/off switch. They run from 2 AA batteries which give the unit 200 hours of continuous use.

ROTOLITE

- Wind powered rotating PVC reflective delineators that attach to the top of traffic cones or guide posts, and easily identify key areas both day and night.
